Education

KPR Institute of Engineering and Technology, B.E. EEE   Sept 2020 – May 2024
- Percentage: 76

Adharsh Vidhyalaya Matriculation Higher Secondary School , HSC   June 2019 – April 2020
- Percentage: 65

Adharsh Vidhyalaya Matriculation Higher Secondary School , SSLC   June 2017 – April 2018
- Percentage: 92

Experience

Full Stack Development Intern, Brainery Spot Technologies, Coimbatore   June 2024 – Present

Learning and applying HTML, CSS, Bootstrap, JavaScript, Jquery, React, Java, and database management in real-time projects. Gained hands-on experience in front-end and back-end development, creating responsive web applications. Continuously enhancing skills in modern web technologies and software development practices.

Projects

Interactive BMI Calculator with Health Feedback

Developed a BMI Calculator that computes BMI based on user input and displays the result along with a health category (underweight, healthy, overweight, or obese). Designed an engaging interface with emoji feedback and implemented form validation to ensure accurate inputs, enhancing the user experience and improving front-end development skills.

Coffee Shop Web Portal

Developed a responsive coffee shop website using HTML, CSS, and Bootstrap, showcasing sections such as a dynamic menu, about us, and a gallery. Implemented interactive navigation, a search bar, and custom styling for an engaging user experience. Focused on mobile-friendly design and consistent UI elements to enhance accessibility. Demonstrated skills in front-end development and attention to visual aesthetics.

Customer Dining and Booking Interface

Designed and developed a responsive restaurant website featuring sections for home, menu, services, and contact information. Implemented interactive elements, including a "Book a Table" button, to enhance user engagement. Utilized HTML and CSS for a visually appealing layout. Focused on delivering essential information effectively to potential customers.
